

## Web Catalogue: Help

The home page contains the images/keys that give access to the catalogue, selecting the type of application, product, news and quick search by number.

### By application

Selecting the type of application allows to use various search/read keys.

After the producer has been selected with the key    , the search can be carried out by:

- model
- Searches by:
- displacement
- type of engine

can be carried out without specifying the producer.

The search can be carried out using the following codes: TecDoc, Mine, Vin, Kba, C95, C98.

IMPORTANT!!! All searches are activated by clicking on the key 

### By product

Selecting the type of product allows to use various search/read keys by:

- Dayco code (Ref .Cod.)
- OE and/or equivalent (OES/AM)

### NEW PRODUCTS

Allows to search all the new products entered into the catalogue over the last 6 months. This search can be carried out by :

- date of issue
- type of product
- family

The product information can also be printed with the "printer" key.

### QUICK SEARCH

Allows a quick search to be carried out from any code: OE/OES, AM, TecDoc, Mine, Vin, Kba, C95 and C98 .

### INFORMATION

To change the type of search, there is no need to return to the home page, just use the pull-down menus:

All cross references are based on the most recent information available at the time of publication. However, due to frequent changes made by the products, we accept no liability as to the applications derived from these matches.
